

Dear Mrs/Mr

e-dito

R-PONS presents the first edition of the e-Actu'PONS Export, whose goal is to communicate information about the fire-fighting and industrial markets, our new products and some general news of our company. This first communication wanted to be very close to the ones already existing in our industrial family group, Saint-Mihiel SAS : the e-Act'UO (drinking water connections and network) as well as the e-Actu'GENTE (bathroom and kitchen furniture) which keep updated the customers of the group.

Good reading
